

Take ECGs more efficiently with this easy-to-use, reliable device.

Welch Allyn CP 100™ Electrocardiograph

- > A non-interpretive 12-lead resting ECG that provides accurate measurements
- > Optional MEANS ECG interpretation software offers a second opinion
- > Full alphanumeric keyboard and LCD screen allow you to enter patient data quickly
- > High-resolution thermal printer generates standard full-sized reports in the format you need
- > Help feature lets you access patient education tools as well as answer system operation questions
- > Uses standard SD cards for virtually unlimited ECG data storage or to transfer data to the Welch Allyn CardioPerfect™ Workstation Software for analysis and/or transfer to an EMR

Lead Quality Graphic
Saves valuable time and ensures accurate data capture by highlighting poor connections

Customisable Report Formats
Prints the chart-sized reports you want in the format that works best for you and your staff

Alphanumeric Keyboard and Display
Enter patient data efficiently with this easy-to-use, full-sized keyboard and LCD display

WelchAllyn®

Advancing Frontline Care™

Components/Accessories of the CP 100

Data Storage on SD Cards

- > Virtually unlimited storage of ECG tests
- > Transfers data to the Welch Allyn CardioPerfect™ Workstation Software for easy retrieval, review, and storage

Digital ECG Patient Cable

- > Lead wires match their anatomical positions, speeding patient hookup while reducing tangling
- > Individually replaceable lead wires are more cost-effective

Cable Arm and Shelf Option

Model shown here with office cart wheel option.

Optional ECG Cart

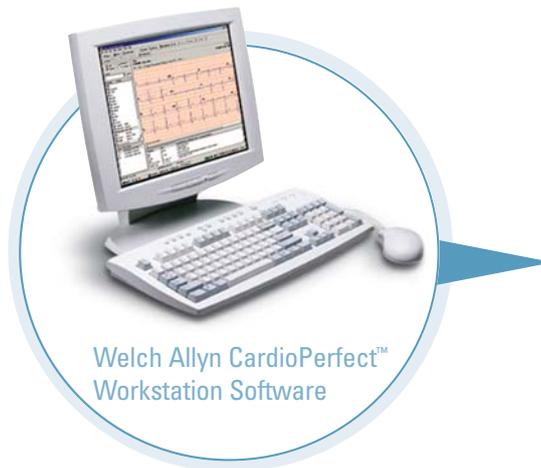

- > Shelf directly under the unit for paper or manuals
- > Attractive, ergonomic design
- > Hospital-grade wheels also available

Model shown here with hospital-grade wheel option.

Welch Allyn CP 100™
Transfer information via SD card

Welch Allyn CardioPerfect™
Workstation Software

Transfer test data and patient information to individual patient records in your EMR for permanent storage

Easy-to-use, intuitive software that is EMR ready

The Welch Allyn CP 100™ transfers information to the Welch Allyn CardioPerfect™ Workstation Software, which provides paperless efficiency as well as connectivity to many leading EMR systems. This software gives you the ability to store, access, review, compare and edit diagnostic test data from any computer on your network.
